## Summary

Full Stack Web Developer with experience in **Vue.js, AWS, Node.js, and Python**, building cloud-native, event-driven applications. Strong background in **serverless architectures**, REST/GraphQL APIs, and scalable frontend development.

---

## Education

### HOLBERTON

SOFTWARE DEVELOPER • LIMA, PERU

03/2023 - 01/2024

trained in full-stack web development, gaining experience in building dynamic and scalable applications.

### Universidad César Vallejo

Turismo • LIMA, PERU

02/2010 - 08/2018

University Studies in Hotel Management and Tourism Services

---

## Skills

Vue.js 2.7, Vuex, Vue Router, Tailwind CSS, Element UI, SASS/SCSS, AWS Lambda, API Gateway, AppSync, Node.js, REST APIs, GraphQL, AWS Lambda, API Gateway, DynamoDB, Amazon RDS (MySQL), Python 3, AWS Glue, Git, Typescript, MongoDB

## Soft Skills

Strong communication skills, ability to work effectively in a team, adaptability to changing environments, problem-solving mindset, good time management, and a proactive attitude toward learning and improvement.

---

## Experience

### CT DEVELOPERS

Software Developer • Los Angeles, CALIFORNIA, USA

03/2025 - 01/2026

I worked on a cloud-native enterprise platform focused on operational management and process automation, contributing to full-stack development using Vue.js 2.7, Vuex, Vue Router, Tailwind, and Element UI on the frontend, and Node.js with REST and GraphQL APIs on the backend, built on a serverless AWS architecture leveraging Amplify, API Gateway, AppSync, DynamoDB, RDS/MySQL, and S3.

### MONGROUP SAC

Software Developer • LIMA, PERU

07/2024 - 03/2025

Developed a transportation management system using Python, MySQL (with stored procedures), and a RESTful API, while building the frontend in Angular and implementing nationwide worker assignment, real-time monitoring, data export, and image management features to optimize logistics and delivery tracking.

### MULTILAB • LIMA, PERU

Intern, Software Developer Jr. • LIMA, PERU

02/2024 - 07/2024

Supported technology migration processes using NestJS, Next.js, and MySQL, collaborating on refactoring legacy components and ensuring smooth system transitions
